

DATE: MARCH 8, 2006

After five years of planning and conceptualizing, we are delighted to announce that Monarch School's brand new lodge is complete! The 10,000 square foot lodge is nestled in the heart of Monarch School's wooded campus, enjoying expansive views of the Cabinet Mountains, campus ponds, athletic fields, basketball courts and log cabin dorms. Please see below for a "sneak peek" inside our beautiful new lodge!

The dining hall is furnished with handmade log and pine dining tables and benches. The tables and benches were constructed with care by staff and students.

The Great Room is a warm and cozy, carpeted gathering area, complete with a stone hearth fireplace, piano, sound system and cozy sofas. All school gatherings, morning and evening activities, drama and musical performances and graduations will be held in the Great Room.
